

SOLUTIONS DE LUBRIFICATION INDUSTRIELLE

MOLYDAL

With over 50 years of experience, MOLYDAL designs lubrication solutions for various industrial activities.

A French company on a human scale engaged in certification and approval processes, MOLYDAL continues to consolidate its presence in Europe and extend its development worldwide.

MOLYDAL VALUES

- Quality policy with a product range designed in compliance with all regulations in force.
- Environmental policy with an eco-responsible product range, with performance equal or superior to current oil solutions.
- Innovation policy with the formulation and testing of the products of tomorrow by the integrated R&D laboratory.

MOLYDAL OBJECTIVES

- Extending the development of the product range to help industries to optimize their process and increase profitability.
- Extending the company's partnership with various industries to optimize its range of products adapted to the specific features and/or the requirement of manufacturing processes.
- Continue to develop eco-friendly and safe products
