.1 Our history

Italian gearboxes since 1986

TRAMEC was founded in 1986 in Calderara di Reno, in the heart of the so-called “Motor Valley”, between Bologna and Modena, the territory famous for being the home of the excellence of MADE IN ITALY in the automotive, motorcycle and precision mechanics sectors.

Since its foundation, TRAMEC has specialized in the production of bevel helical , parallel shaft, shaft mounted, right angle gearboxes, expanding its range over time with new product lines such as precision planetary gearboxes and worm gearboxes . Subsequently the offer was implemented with electric motors and drives for automation.

.3 Our values

The company's goal is to face a constantly evolving market in terms of qualitative, economic and presence competitiveness strategies.

100% MADE IN ITALY

RELIABILITY

PUNCTUALITY AND FAST BUILT

INNOVATION

CONSTANT CUSTOMER SUPPORT

Vision

The philosophy of TRAMEC has always focused on the following key points:

- The pursuit of excellence in terms of production and quality. For this reason , our entire production is strictly and proudly 100% MADE IN ITALY;
- TRAMEC values people , from the customer through the company. Tramec puts people first, they are our #1 asset;
- The continuous search for innovative solutions.

Company mission

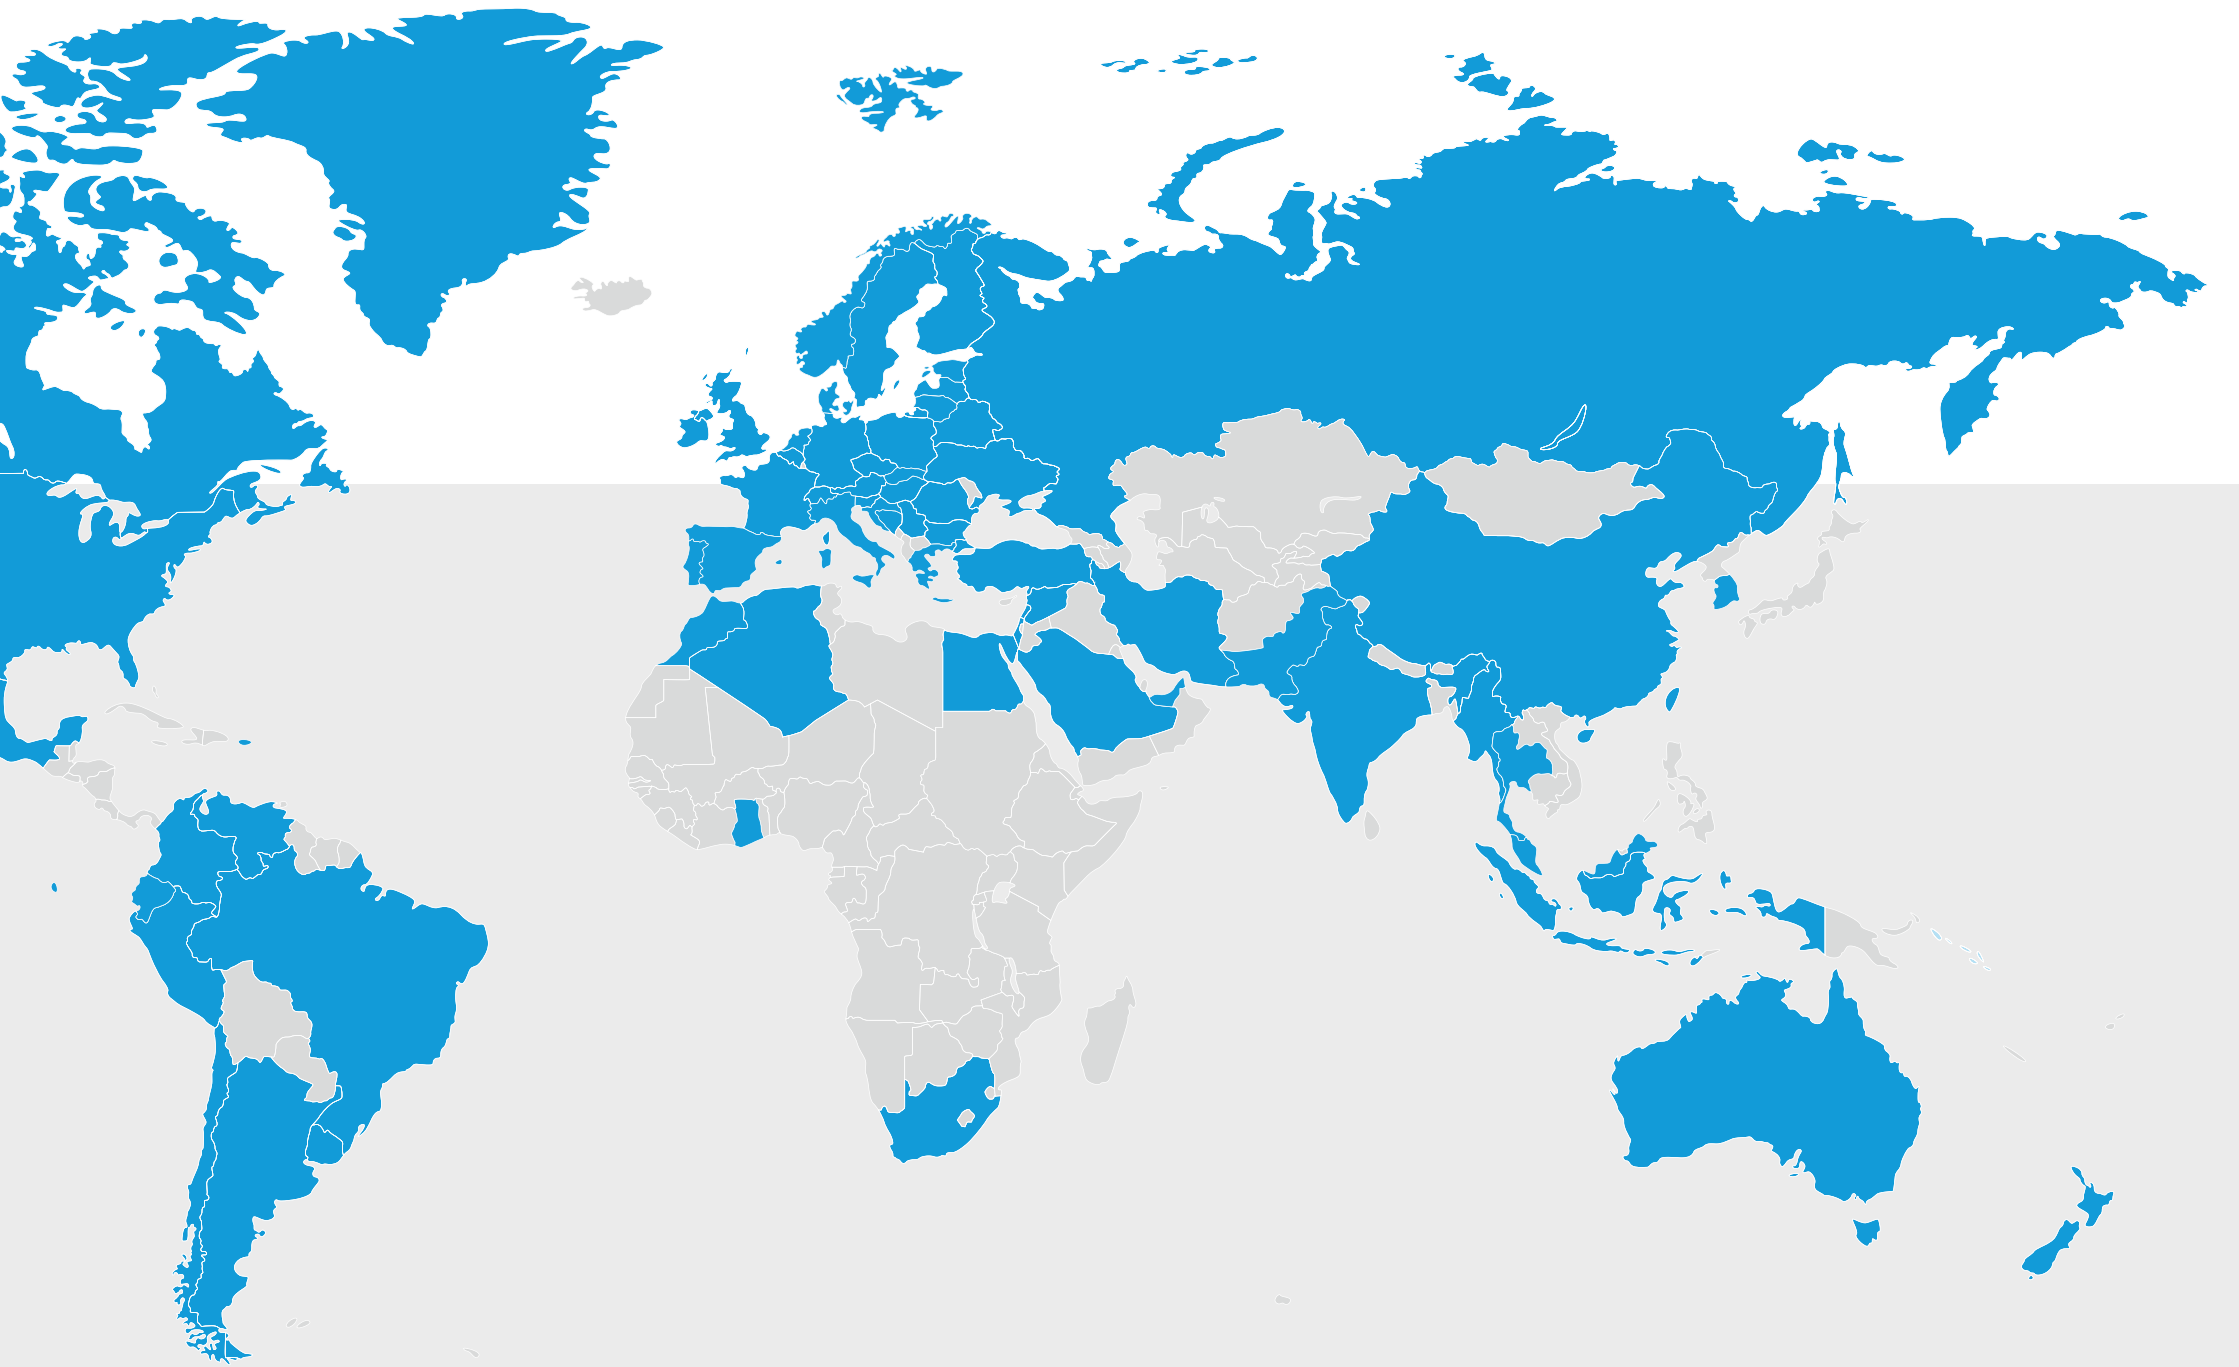

Our mission is to be trusted global supplier for the manufacture of advanced and reliable solutions in the industrial power transmission sector.

To provide customers with quick and punctual support, starting from the design phase of the solutions up to the after-sales, establishing a relationship of trust and long term mutual respect.

.4 Tramec in the world

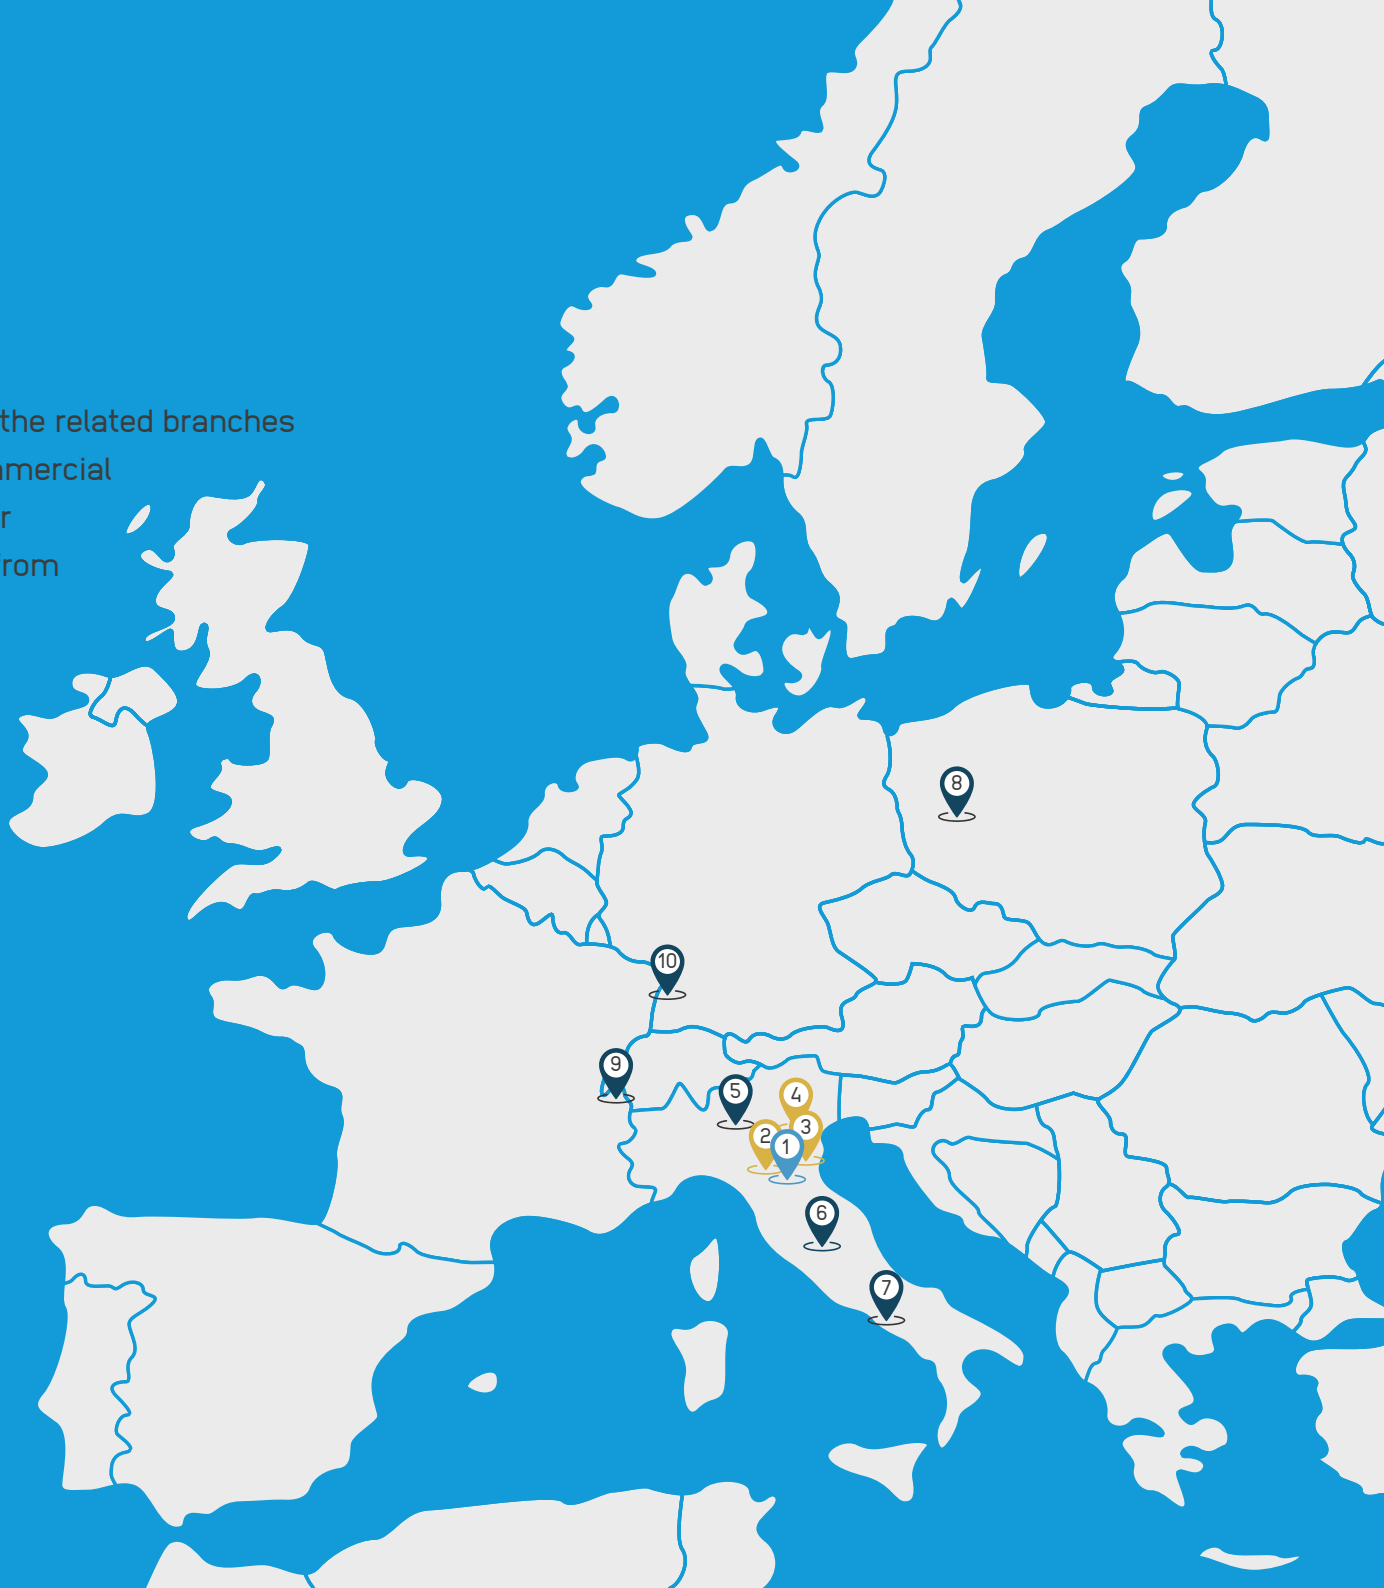

Tramec boasts a presence in 68 countries on 5 continents, an essential prerequisite for occupying a leading position in the sector.

.5 Tramec Group

The production companies of the group and the related branches represent a real territorial presence of a commercial and logistic nature and support the customer with pre and after-sales activities, starting from the design phase and covering the entire life cycle of the product.

.7 Applications fields

The company's goal is to face a constantly evolving market in terms of qualitative, economic and presence competitiveness strategies.

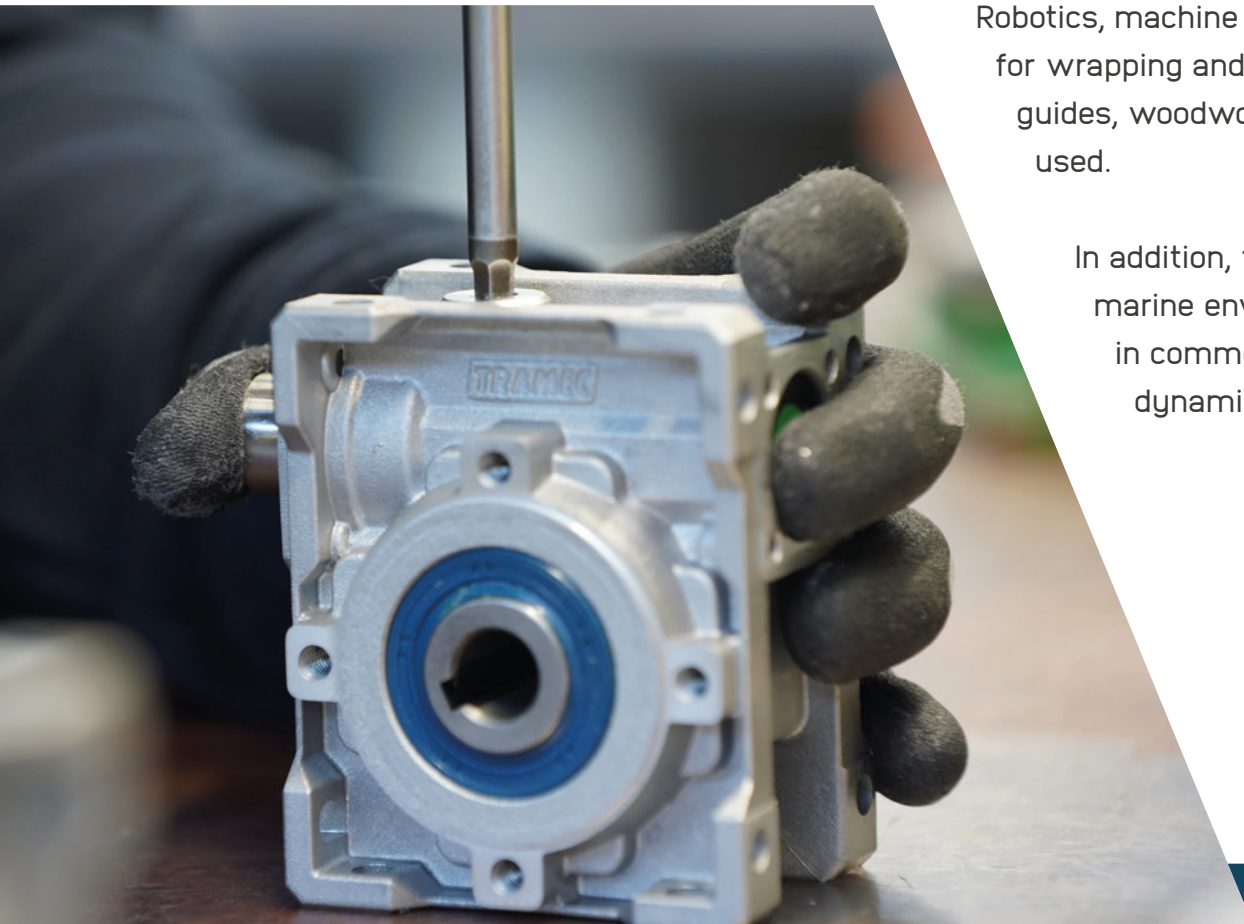

.8 Tramec product lines

Tramec products cover a wide range of needs and are present in different applications.

Robotics, machine tool automation, printing machines, automatic machines for wrapping and packaging, manipulators, screen printing machines, linear guides, woodworking machines are some of the examples where they are used.

In addition, there are specific products for the food, pharmaceutical, and marine environment. The different series present have characteristics in common: guarantee of precision of movement, high performance, dynamism, with an eye to maintenance economy.

GEAR REDUCERS

- Bevel helical gearboxes
- Parallel shaft gearboxes
- Shaft mounted gearboxes
- Right angle gearboxes
- Variators

WORM SHAFT GEARBOXES

- Square
- Round
- Helical worm gearboxes
- Combined
- Double output worm gearboxes

REDUCERS / GEARMOTORS GHA SERIES

- Premium
- Classic & modular
- MHA & GHA classic motors

PATENTED

WORM GEARBOXES TLS LINE

- Round
- Combined

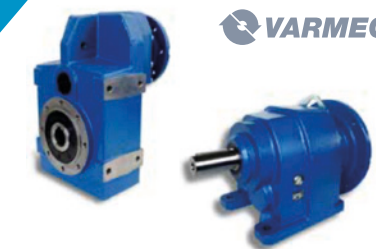

PLANETARY GEARBOXES

- In line
- Bevel helical
- Standard precision
- High precision

VARMEC REDUCERS

- Helical gearboxes
- Shaft mounted gearboxes

VARMEC

BER-MAR PRODUCTS

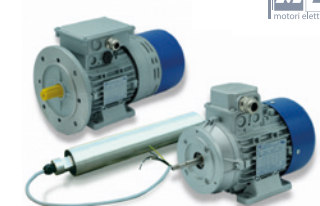

- Standard single-phase & brake motors
- Standard three-phase & brake motors
- Standard double polarity & brake motors
- Permanent magnet synchronous motors
- Import motors
- Inverters and drives

BER-MAR

MT ELECTRIC MOTORS PRODUCTS

- Standard single-phase & brake motors
- Standard three-phase & brake motors
- High braking torque motors
- Stationary brake motors
- Special motors
- Motorized drums

motori elettrici

.9 Social responsibility

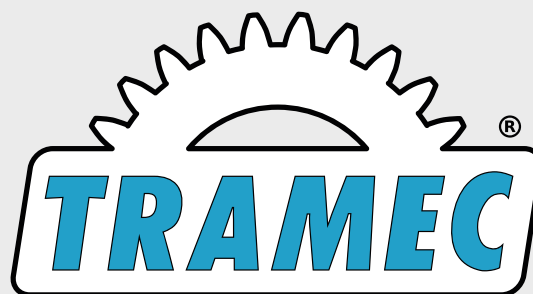

Tramec for sport

Sport is one of the best vehicles for the values that Tramec intends to pursue; for this reason, over time, various realities have been sponsored in numerous sports including football, cycling, volleyball, running and sports for the disabled.

The longest partnership is the one with Benedetto XIV Cento, a militant company in the A2 Italian basketball championship, of which Tramec has been a sponsor for over 10 years and is currently the title sponsor, giving its name to the team participating in the 2022/2023 season as TRAMEC CENTO.
